REBATE CALCULATION SECTION • Circle all applicable rebate(s) and then total at bottom.

Qualified Measure	Required Efficiency	Additional Requirements	Rebate Amount[1]
APPLIANCES		**For qualifying models and other eligibility details, visit www.cee1.org and www.energystar.gov**	
Refrigerator/ Freezer	Recycling	• Working model, 12 cubic feet or larger. Contact JACO Environmental (800) 299-7573	$35
Refrigerator	ENERGY STAR		$75
Clothes Washer	CEE Tier 3	*(models using silver ion technology do not qualify)*	$125
ELECTRONICS			
Power Strips	Smart Strip	Minimum 6 plug outlets on strip, at least half of which automatically turn off when a 10%+ drop in current is detected, and automatically turn on when an increase of 7 watts or more in power is detected.	$10
HEATING & AIR CONDITIONING			
Gas Furnace	CEE Tiers 2 and 3	• AFUE 92% or greater. • Permit, specification sheet[2,3,5] & proof of final inspection required	$200
Central AC/Two Tier		• Permit, specification sheet[2,5] & proof of final inspection required • Rebate only paid where A/C is a replacement for less efficient model. • No rebates for new A/C installations, or for room A/C units or heat pumps.	
	CEE Tier 1	• SEER 14	$200
	CEE Tier 2	• SEER 15	$300
Solar Attic Fan		• Must be purchased and installed as a retrofit. • Permit & final proof of inspection required.	$25
Boiler		• AFUE 85% or greater. • Permit & final proof of inspection required	$200
INSULATION			
Attic/Roof	R-30 R-38 R-19	• Covering 50% of total attic space (retrofit only) • Covering 50% of total attic space (retrofit only) • Single-Family Residence with flat roof • Multi-Family Residence only one rebate per complex. • Must submit written verification from contractor on percentage of roof covered. • If self-installed, provide detailed drawings of conditioned living space, including square footage covered with insulation.	$150 $200 $150
Wall	R-13 or greater	• Covering minimum of 75% of living area (retrofit only) • Existing walls must be uninsulated & between conditioned & unconditioned living area. • Multi-family Residence only one rebate per complex. • Must submit written verification from contractor on percentage of wall covered. • If self-installed, provide detailed drawings of conditioned living space, including square footage covered with insulation.	$200 per house
POOL PUMPS			
Variable Speed		• Must be a qualifying high efficiency variable speed pool filtration pump & motor.	$200
Pool Filtration		• Automatic controller capable of controlling all speeds must be installed.	
Pump & Motor		• Only pumps & motors installed on new or existing in ground pools qualify (above ground pool, pond, pool cleaner/booster and spas do not qualify). • Replacement variable speed pump & motor must be of equal or lesser horsepower than the existing single or two speed pump & motor (retrofit only). • Permit required if electrical upgrades required.	
WATER HEATERS		**Permit, specification sheet[5] and proof of final inspection required for all water heaters.**	
Gas		• Tank units must be 30 gallons or greater	
	0.67 EF or greater	• CEE Tier 1; ENERGY STAR Certified	$80
	0.80 EF or greater	• CEE Tier 2; ENERGY STAR Certified	$150
	0.90 EF or greater	• ENERGY STAR Certified	$200
Tankless	0.82 EF or greater	• CEE Tier 1; ENERGY STAR Certified	$150
Electric	0.93 EF or greater	• Tank units must be 30 gallons or greater	$40
Heat Pump	2.0 EF or greater	• ENERGY STAR Certified • Tank units must be 30 gallons or greater	$200
		TOTAL	

[1] Rebates issued on specified rebate amount or actual cost of measure, whichever is the lesser amount.
[2] Check with the City of Palo Alto Development Center (650) 329-2496 for specific permitting requirements.
[3] Contact the City of Palo Alto Utilities Engineering Department (650) 566-4501 prior to purchase for gas service requirements.
[4] Rebate is for both energy and water efficiency savings. CPAU provides the water rebate in partnership with Santa Clara Valley Water District.
[5] Specification sheets are specific to the appliance model number you purchased and state the efficiency; they can be found on the manufacturer's website.
