

## Residential Efficiency Checklist for PV Partners Program

| Measures  | Have Installed | Will Consider | Not Applicable |
|---|----------------|---------------|----------------|
| <b>Lighting</b>                                 |                |               |                |
| Compact Fluorescent Lamps                       |                |               |                |
| T8 lamps (replaces T12)                         |                |               |                |
| Energy Star Light Fixtures                      |                |               |                |
| Sensors (daylight, occupancy, or timers)        |                |               |                |
| Solar tube skylight                             |                |               |                |
| <b>Building Envelope</b>                        |                |               |                |
| Double pane, low-E windows                      |                |               |                |
| Attic insulation                                |                |               |                |
| Attic access weatherstripping                   |                |               |                |
| Caulking, outlet gaskets, door weatherstripping |                |               |                |
| Wall Insulation                                 |                |               |                |
| <b>Heating and Cooling</b>                      |                |               |                |
| Energy Star Furnace, Boiler, Heat pump          |                |               |                |
| Energy Star Air Conditioner                     |                |               |                |
| Programmable Thermostat                         |                |               |                |
| Duct test, seal/insulation                      |                |               |                |
| Furnace Tune-up                                 |                |               |                |
| Whole House Fan                                 |                |               |                |
| Energy Star Ceiling Fan                         |                |               |                |
| Energy Star Ventilation fans (bathroom)         |                |               |                |
| Solar Attic fan                                 |                |               |                |
| <b>Water Heating</b>                            |                |               |                |
| Energy Star Water Heater                        |                |               |                |
| Water Heater insulation                         |                |               |                |
| On Demand Water Heater                          |                |               |                |
| Solar Water Heater                              |                |               |                |
| Pipe Insulation                                 |                |               |                |
| <b>Appliances</b>                               |                |               |                |
| Energy Star Refrigerator                        |                |               |                |
| Energy Star Dishwasher                          |                |               |                |
| Energy Star Clothes washer                      |                |               |                |
| Clothesline/ Drying rack                        |                |               |                |
| <b>Water</b>                                    |                |               |                |
| Low Flow shower & faucets                       |                |               |                |
| Ultralowflow toilet                             |                |               |                |
| <b>Outdoor</b>                                  |                |               |                |
| 2 speed pool pump                               |                |               |                |
| Pool cover                                      |                |               |                |
| Solar Pool Heater                               |                |               |                |
| <b>Other</b>                                    |                |               |                |
| Energy Star Office Equipment                    |                |               |                |
| Flat Panel Display (Monitor, TV)                |                |               |                |
| Energy Star Electronics (TV, DVD, Phone)        |                |               |                |
| Use Power-strip to turn off plug-loads          |                |               |                |
| Recycle Second Refrigerator                     |                |               |                |
| Energy education (attend workshops..)           |                |               |                |
| Other, please describe:                         |                |               |                |
