## Phase I Improvement Schedule

### Construction:

January 2009 to Summer 2009

### Construction Hours:

M-F 9:00am—4:00pm

## Project Milestone

Six public meetings held to gather input for project	<b>Spring 2006</b>
Environmental certification complete	<b>Feb. 2007</b>
Construction begins	<b>Jan. 2009</b>
End of construction	<b>Summer 2009</b>
Asphalt overlay of San Antonio Road	<b>Fall 2009</b>

## Project Overview

This Capital Improvement Project will replace aging infrastructure along San Antonio in the median islands and the sidewalk planting strips. Construction will begin in January 2009 and last approximately six months. The project limits of work are from Middlefield Road to Briarwood Way. After the tree replacement and median island improvements are complete, the roadway will be resurfaced in the fall of 2009.

## The Solution

√ Replace curb and gutter	√ Install new automatic irrigation system
√ Replace street trees with more sustainable varieties	√ Create hedge screening and tree canopy on frontage road
√ Repair damaged road	√ Perform asphalt overlay summer 2009

## The Problem

- Deteriorating median conditions due to tree roots up heaving pavement
- Gaps and uplifted curb and gutter along medians and parking lanes
- Lack of landscaping, screening
- Shrubbery, and barren medians
- Aging trees prone to limb and trunk failure
- Cutting root to repair curb and gutter destabilizes the tree

## The Goals

- Provide long term solution that will prevent problems associated with uplifting tree roots
- Improve road resurface for vehicular and bicycle travel
- Create screening for adjacent residences and aesthetic travel corridor
- Reduced costly on-going road repairs

**Stay Informed:** A project infoline and a website have been established for community members to join the mailing list, receive updated information, ask questions and provide comments. In addition, periodic email updates via neighborhood associations are planned to keep the community informed during construction. For further information regarding this project visit us on the web at <http://www.cityofpaloalto.org/pwd>. Look at Featured Link "San Antonio Road Project".
