

zero means nothing

# zero WASTE means doing something

The Palo Alto community has a goal of Zero Waste (no waste to landfills) by 2021. To achieve this, we need everyone's help.

Zero Waste is a philosophy that goes beyond recycling by taking a whole systems approach to managing the flow of resources through society. Taking inspiration from natural systems where all outputs are an input for another process, Zero Waste seeks to eliminate waste wherever possible.

Zero Waste Palo Alto is here to help our community make Zero Waste a way of life. Contact us to learn more.
