

COME ON! GET OUT OF YOUR CAR!

There are many sensible reasons to supplement the family car with more active and healthier transportation modes – they’re fun, they’re often faster, they can be more economical and they are all better for the environment!

ride occasionally for shopping and leave your car at home
discover traffic-free, hassle-free travel

ride 3 days a week for school
catch up with friends on the way

ride 5 days a week for work
employer subsidizes cost of public transportation

savings

health

biking 30 minutes ➤ 292 calories burned
biking 4 miles rather than driving ➤ reduces 15lbs of air pollutants

safety

More pedestrians and cyclists,
more eyes on the street,
more safety for all.

Take a moment to think about how you and your family travel.

While most of us habitually use our car, more and more residents are discovering that there are other “Ways 2 Go.” Look around and you will discover hundreds of people using bicycles to get to work, to shop, and to school. People are walking more, discovering that if their destination is five blocks or less away, walking is faster than driving, and much healthier. Caltrain is convenient for commuters as well as for Giant’s fans. Hopping on Palo Alto’s city shuttles is a quick and easy way to get around town.

If you have a question about how to go, check out the Way2Go section of the Palo Alto web site – by catching the link on the home page or entering:

www.city.palo-alto.ca.us/commute/homeway2go.html
