

WHAT THE FUTURE HOLDS

The Teen Center 's Temporary Home

Last November, Palo Alto Voters passed Bond Measure N that gave the City of Palo Alto funds to make major facility improvements to libraries and the Mitchell Park Community Center. Once demolition has started, a temporary Teen center will be available so that our services will be not be interrupted during construction.

The new Teen Center will be at the Cubberley Community Center at 4000 Middlefield. During the first months of school our Teen Staff will be helping students navigate the path to the new Teen Center.

The City of Palo Alto has a commitment to offering a wide array of programs and services for teens. Teenage years are often a very stressful time for youth so it is important to make available mentors, activities and places to go. We are so happy to be able to offer these resources for teens in this community.

We look forward to serving you and your child!
