Subject: pa finances

Ray and Le

I have a clear sense after our 12/13 meeting that a supplementary "seminar" on the city's finances would be a good investment of time and effort. Done now such would be "money in the bank" six months from now.

Most, if not all, of the relevant material we have.

WE need every member on the same page re the current and recent relevant past of city finances.

Some overheads or a laptop projector would greatly facilitate understanding; and a presenter from the commission?

Perhaps a "special meeting" duly noticed with a limited agenda -- one topic.

We aren't scheduled to meet again until 1/13.

Jim Schmidt
