

Carbon Neutral—Palo Alto Style!

<https://vimeo.com/61055308>

Carbon neutral---that's our passion.
It's not just a fad or fashion.
Carbon neutral—for all seasons---
There's no rhyme but there's good reasons
Palo Alto must embrace it;
Climate's changing---let's face it!

To avoid a future mega-ghoulish
Say no way to fossil fuelish
Paths we traveled down before.
We shoot for carbon free—we score!

Melting glaciers, rising seas,
Raging storms that bring disease.
Planet earth is like no other—
We must act now to help our Mother!

It's time for action---no more stalling!
Power comes from water falling.
Power comes from winds that blow---
Let carbon neutral energy flow.
Sunshine gets electrons moving.
Now we're carbon neutral grooving!

Our founders had the smarts to see
Community-owned electricity
Was a hot idea that could really cook---
And now a new chapter in that book:
To greenhouse gas we say "Be gone!
Our founding fathers would say "Right on!"

Carbon neutral---that's our passion.
It's not just a fad or fashion.
Carbon neutral—for all seasons---
There's no rhyme but there's good reasons
Palo Alto must embrace it;
Climate's changing---let's face it!....Climate's changing---let's face it!...
