TO: HONORABLE CITY COUNCIL

FROM: CITY MANAGER DEPARTMENT: PUBLIC WORKS

DATE: DECEMBER 12, 2005 CMR:452:05

SUBJECT: ANNUAL REPORT ON THE PROGRESS OF THE LONG-TERM GOALS FOR THE PALO ALTO REGIONAL WATER QUALITY CONTROL PLANT

This is an informational report and no Council action is required.

DISCUSSION
In July 2000, the Palo Alto Regional Water Quality Control Plant (RWQCP) started the Long-Term Goals Study with the vision that the future RWQCP will be consistent with the concept of sustainability. During the course of the study, the RWQCP hosted a series of seven workshops that led to the development of the long-term goals and decision tools by stakeholders. These goals are consistent with the City's sustainability program and will guide the development of the Plant improvements and future planning. Although complete implementation will take many years, the RWQCP is making consistent progress in its daily activities towards these goals. The report (Attachment A) is prepared by the RWQCP on current activities towards achieving the goals.
