From: City Manager

Lead Department: Public Works

Recommendation
Staff recommends that Council approve and authorize the City Manager or his designee to execute Contract Amendment No. 3 to Contract No. C16161210 with Shah Kawasaki Architects, Inc., (Attachment A) to increase compensation by a not-to-exceed amount of $102,141 to provide continued construction administration and LEED certification services for the Fire Station No. 3 Replacement Project (CIP PE-15003). The added amount includes $92,841 for basic services and $9,300 for additional services. The revised total contract amount is not to exceed $916,383, including $833,824 for basic services and $82,559 for additional services.

Background
The Fire Station No. 3 Replacement Project is part of the 2014 Council Infrastructure Plan. The Project will provide a new facility built to meet essential services standards. The new fire station is being built at the existing location of Fire Station No. 3 at 799 Embarcadero Road in Palo Alto.

On December 14, 2015, Council approved a contract with Shah Kawasaki Architects, Inc. (SKA) to provide architectural design services for the Fire Station No. 3 Replacement Project, as well as construction administration and LEED certification services during construction, with a contract end date of September 10, 2018 (Staff Report ID#6299).

Council awarded a construction contract to the lowest responsible bidder, Strawn Construction, Inc. (Staff Report ID#8561) on November 27, 2017. Construction on the Fire Station No. 3 Project began in January 2018 with an anticipated completion in early 2019.
On October 18, 2018, Council approved Amendment No. 1 to extend SKA’s construction administration services contract (Staff Report ID#9511) to add additional time and budget primarily due to the extended design review process prior to the start of construction.

On June 3, 2019, Council approved Amendment No. 2 to extend SKA’s construction administration services contract (Staff Report ID#10193) to add additional time and budget to cover the expected Project construction delay to August 2019.

Discussion
Construction on the Fire Station No 3 Project was contracted for completion by January 8, 2019, with minor change orders extending the completion date to March 10, 2019. The contractor failed to meet the contracted schedule and has been notified of the City’s intent to assess liquidated damages under the contract in the amount of $1,500 per day, intended to cover all costs associated with delay, including costs such as added construction administration costs. Currently, substantial completion is expected in January 2020.

SKA Contract Amendment No. 3 is necessary to provide the additional funding needed for the extended construction administration services resulting from the contractor’s delay in completing the Project.

Timeline
Construction of the Fire Station No. 3 Project is now expected to be substantially complete in January 2020.

Resource Impact
Funding for this contract amendment is available in the Fire Station No. 3 Replacement Capital Improvement Project (PE-15003). The cost for these extended construction administration services is expected to be offset by the assessment of liquidated damages.

Policy Implications
The proposed action is consistent with City policy.

Stakeholder Engagement
Stakeholder engagement is not applicable to this contract amendment.

Environmental Review
This project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) under Section 15302 of the CEQA Guidelines as “Replacement or Reconstruction of Existing Structures” and no further Environmental review is necessary. A notice of CEQA exemption was filed in early March 2017.
