CONCRETE MANAGEMENT
Prevent sediment from migrating offsite and protect stormwater BMPs. For more information, please contact the City of Palo Alto’s Watershed Protection Program at (650) 329-2338. All construction projects are required to implement year-round stormwater BMPs, as they apply to your project.

Construction projects are required to implement year-round stormwater BMPs, as they apply to your project.

Runoff from streets and other paved areas is a major source of pollution to San Francisco Bay. Construction activities can directly affect the health of the Bay unless contractors and crews plan ahead to keep construction dirt, debris, and other pollutants out of storm drains and local creeks. Following these guidelines will ensure your compliance with City of Palo Alto Ordinance requirements.

STORM DRAIN POLLUTANTS MAY BE LIABLE FOR FINES OF UP TO $10,000 PER DAY!
