TO: HONORABLE CITY COUNCIL

FROM: CITY MANAGER DEPARTMENT: PUBLIC WORKS

DATE: JUNE 17, 2002 CMR:288:02

SUBJECT: ANNUAL REPORT ON THE PROGRESS OF THE LONG-TERM GOALS FOR THE PALO ALTO REGIONAL WATER QUALITY CONTROL PLANT

This is an informational report and no Council action is required.

DISCUSSION
The Palo Alto Regional Water Quality Control Plant (RWQCP) started the Long-term Goals Study in July 2000 with the vision that the future RWQCP will be consistent with the concept of sustainability. During the course of the study, the RWQCP hosted a series of four workshops that led to the development of the long-term goals by stakeholders. These goals are consistent with the City's sustainability program, and will guide the development of the plant improvements and future planning. The RWQCP is making consistent progress in its daily activities towards these goals, although complete implementation will take many years. The attached report is the first annual report on the progress and activities towards achieving the goals.
