MULTIYEAR IMPACTS OF THE PANDEMIC

• The past year has been filled with uncertainty and challenges
  • City of Palo Alto took swift, decisive, and difficult action to balance an approx. $40 million decline in FY 2021 revenues (particularly sales and hotel taxes)
  • Significant efforts have been underway and accomplished to adapt to rapid changes

• Council directed staff to use LRFF Scenario B assumptions which outlines a conservative recovery from the current pandemic over a three to five-year period

• Following an extremely difficult year, balancing strategies to address the City's continued fiscal challenges, are neither recommended nor sustainable

• By City Charter requirement, a balanced budget must be adopted by Council by 6/30

1) Propose lowering the level of the Budget Stabilization Reserve (BSR) by $2.5 million, below the 18.5 percent target to between 16.6 percent and 17.4 percent of estimated FY 2022 expense levels;

2) Propose a one-year solution where the City will continue to face gaps in FY 2023 if revenues do not grow faster than expenses;

3) Assume a 50-50 split of the receipt and appropriation of American Rescue Plan Act (ARPA) funding of $13.7 million over a 24-month period;

4) Consider a moderate increase in the Electric Utility Rate in FY 2022;

5) Request the City Council or their representatives to engage with the school board on cost sharing for services such as, but not limited to: Crossing Guards, Children’s Theatre Outreach, Safe Routes to School;
