The City of Palo Alto remains well within its appropriations limit in FY 2022. Future year limit trends can be made based on the average change in regional population and income growth. The appropriations subject to limitation includes proceeds of taxes from the General Fund, Capital Projects Fund, and Special Revenue Funds.

On November 6, 1979, California voters approved Proposition 4, an initiative that added Article XIIIB to the state Constitution. The provisions of this article place limits on the amount of revenue that can be appropriated by all entities of government. The Appropriations Limit is based on actual appropriations during the 1978-1979 fiscal year, as increased each year using specified population and inflationary growth factors.

The above preliminary calculations include FY 2022 Proposed Operating and Capital Budget figures as of May 5, 2021 and will be updated to include changes made during the City Council adoption process culminating on June 21, 2021.
