Ok I suspected no one would answer back...It could be due to the holidays but I doubt it...Many of you SCUSD folks saw my last email I suspect...Anyway; most school district trustees are these sort of novice local individuals who were encouraged to run for their seat by their Auntie Janie or whatever; so I don't expect any responses...Don Sun would have been the exception due to his experience in Cupertino government and/or the way the Vallco situation was handled so carefully by the City of Cupertino until democratic governor Newsom destroyed the deepened democratic process with a wrecking ball...You must remember that many Cupertino residents came from areas of the world where there is no democratic process; therefore this is beyond insulting and hurtful to the process...

Many school district officials also think since they are helping out children that anything they do is acceptable...I know all about that special kind of condescending hubris...And I also know that since you all know I am a powerful and unstoppable local journalist and activist and self-appointed Mayor of Southwest Sunnyvale who is questioning all of you -- that you all are taking the fifth right now because you are not only all apparently part of a conspiracy against truth -- but you are also frightened that you all did something major without required public approval...

And I also noticed that the Hong Kong deepened democracy story has all but dropped out of the news since publishing my blog post about it...Because let's face it; I made a very uncomfortable -- yet accurate -- description of current events and it made some people quite uneasy...Good then...Truth is a very powerful weapon is it not?

My point has always been for many years now that our system of american government does not like deepened democracy and never has...Deepened democracy means that all of the expensively purchased fake-ass government officials who were elected by special interests to do certain things will not have as much sway over proceedings...It also means bed ridden people will be able to vote about

important issues online from their beds...Because if we can do multi-thousand dollar transactions online safely then we can also safely vote online too with some effort...

It also means the voices of average folks will rise and finally be acknowledged to bring betterment to society; so all of the things that were previously ignored can finally be addressed in a more broad fashion...

Questionable decisions made by larger groups of people will still exist; but at least those decisions will have been run by more people...Exactly like the situation I forced at the Peterson field a decade ago which brought about amazing results and permanent changes to our neighborhood; with a permanent bucolic SCUSD farm which helps to preserve our valleys' proud farming tradition...You're welcome...All for now...

Either way; this is a safer and more convenient method of communicating with the SCUSD -- with oversight from federal and county etc officials as well so my communications cannot be twisted into something they are not to try and silence my valiant activist efforts...And speaking of that oversight; I wanted to mention that I have heard from neighbors who have attempted to communicate with SCUSD trustees via email without getting any response; including myself...Why do SCUSD trustees list their email addresses but do not respond?

Hello Jason, This matter involves a very complex bribery investigation into the financial affairs of judge Socrates Peter Manoukian, that was preceded by a lifestyle audit, which was triggered in great part by the work of Kevin Williams, an investigator out of San Francisco, and Carrole Herman, from F.A.T.E., (Foundation Aiding The Elderly) coordinated with Bay Area coalition members in compiling the relevant probate court records. Janet Phelan was was also involved.

Terri's investigative files were removed from San Benito county and passed over via "Task Force" delivered to retired FBI agent Robyn Gritz and designated records custodian in the San Francisco Bay Area. Lynn should know who this person is.

To bring the SCUSD up to date; I sacrificed almost a decade of my time; energy and good life of 50+ years in this neighborhood when I stuck my neck out for and helped save the Peterson field parcel a decade ago...

I brought the neighborhood together then experienced blow back in the form of harassment and stalking and menacing etc...And it appears that not only police were involved in this; but also actively worked to cover it up as it continued on unabated...

I managed to establish deepened democracy here in the Birdland neighborhood during this time -- which is a proud tradition that must be carried forward into the future -- but it also appears not only are the bleachers closed off which Peterson High School alumni offered to fix with their dollars; but a pool where Olympic swimming champion Mark Spitz trained has also been demolished as well; along with the beautiful grove of redwoods that lined the tennis courts!?! These redwoods not only were beautiful; but they also provided habitat for wildlife; much needed noise abatement for nearby neighbors -- along with important carbon sequestration as well...How could this have been allowed to happen? What kind of psychopaths would do such a thing?

Either way; I cut some clones from the base of the redwoods a few years back; so all is not lost...But it is still unconscionable the redwood grove was removed...Was a required permit issued for their removal? And what is the plan for the parcel currently surrounded by construction fencing? Please respond as there are many witnesses to this email that are likely wondering what is going on there as well...

I thought it might be a good idea to share this information and these blog posts with the SCUSD Trustees to keep them up to date with what is going on behind the scenes...I started a new email thread today because the last thread was getting too large and made it difficult to open up after awhile...

Hello Jason, This matter involves a very complex bribery investigation into the financial affairs of judge Socrates Peter Manoukian, that was preceded by a lifestyle audit, which was triggered in great part by the work of Kevin Williams, an investigator out of San Francisco, and Carole Herman, from F.A.T.E., (Foundation Aiding The Elderly) coordinated with Bay Area coalition members in compiling the relevant probate court records. Janet Phelan was was also involved.

Terri's investigative files were removed from San Benito county and passed over via "Task Force" delivered to retired FBI agent Robyn Gritz and designated records custodian in the San Francisco Bay Area. Lynn should know who this person is.

Ok...Now that I have regained my composure; I wanted to recommend that replanting 4-5 new redwoods in place of the old ones would be a good idea right now...Dig deep holes and fill them full of fresh organic soil and then plant the redwoods and fertilize and water them regularly; perhaps running a pipe along the tennis court boundary to water the new trees would be a good idea too...

It was totally UNACCEPTABLE to remove those trees -- and I highly suspect they were removed without required permits as well...Therefore the time has come to fix the damage and start over so it can be done correctly this time around...And don't think staying silent will make this all 'go away'; as it will only make me that much more determined to get to the bottom of this situation...

Hello Jason, This matter involves a very complex bribery investigation into the financial affairs of judge Socrates Peter Manoukian, that was preceded by a lifestyle audit, which was triggered in great part by the work of Kevin Williams, an investigator out of San Francisco, and Carole Herman, from F.A.T.E., (Foundation Aiding The Elderly) coordinated with Bay Area coalition members in compiling the relevant probate court records. Janet Phelan was also involved.

Terri's investigative files were removed from San Benito county and passed over via "Task Force" delivered to retired FBI agent Robyn Gritz and designated records custodian in the San Francisco Bay Area. Lynn should know who this person is.

These redwoods not only were beautiful; but they also provided habitat for wildlife; much needed noise abatement for nearby neighbors -- along with important carbon sequestration as well...How could this have been allowed to happen? What kind of psychopaths would do such a thing?

Either way; I cut some clones from the base of the redwoods a few years back; so all is not lost...But it is still unconscionable the redwood grove was removed...Was a required permit issued for their removal? Hello Jason, This matter involves a very complex bribery investigation into the financial affairs of judge Socrates Peter Manoukian, that was preceded by a lifestyle audit, which was triggered in great part by the work of Kevin Williams, an investigator out of San Francisco, and Carrole Herman, from F.A.T.E., (Foundation Aiding The Elderly) coordinated with Bay Area coalition members in compiling the relevant probate court records. Janet Phelan was was also involved.

Terri's investigative files were removed from San Benito county and passed over via "Task Force" delivered to retired FBI agent Robyn Gritz and designated records custodian in the San Francisco Bay Area. Lynn should know who this person is.

Anyway; back to the SCUSD situation...It is beyond troubling to see that no SCUSD trustees have had the guts to enter this conversation and provide much needed clarity for the subjects previously mentioned...Just silence...Is that what people voted you in for? To stay silent when people you were elected to represent contact you? This is further proof that something is not only awry down at the SCUSD; but also the City of Sunnyvale who remain strangely silent as well -- as they compensate a violent thug (Lee Bagley) while trying desperately to side-step my situation which I just forcefully shoved down your throats with a claim submitted a few weeks ago...Denying me of much needed aid as an enemy loomed down the street during a 'hot war' started by the RPF; allowing me to be further harassed and stalked at my residence while police did nothing to stop it -- BECAUSE POLICE WERE BEHIND IT...
