## Hello,

Thank you for your swift response and your willingness to work with us. MOBILE advertising is the marketing practice of placing a logo on a vehicle thus turning it into a mobile billboard. This can be achieved by simply placing a logo on the surface of the vehicle, but it is becoming more common today to use vinyl sheets as decals because these can be removed with relative ease, making it much less expensive to change from one advertisement to another. Vehicles with large, flat surfaces, such as buses and light-rail carriages, are fairly easy to work with, though smaller cars with curved surfaces can also be wrapped in this manner. MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps,"that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

What does the company get out of this type of ad strategy? Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. Our DRINK shall provide experts that would handle the advert placing on your car. You will receive an up front payment of \$300 inform of check via courier service for accepting to carry this advert on your car. to this effect you are advise to check your email regularly to get update as to know when your upfront payment will arrive along with Graphic Artist address.

1) You will receive a Certified Check. As soon as you receive the check, you will cash the check for the decal wrapping on your car, deduct \$300 as your up-front payment. The rest of the funds should be transferred to the Graphic artist that will wrap the decal on your car. All you need is to confirm the acceptance and understanding of this email.

2) You will make a transfer of funds to the Graphic artist at the nearest walmart outlet in your area, the Info which you will make the transfer to will be emailed to you soon. 3) We'll like to have some Information about your car.

### Longtime Santa Clara County education trustee censured for alleged gender bias

Moving right along; I also wanted to call out the SJ Mercury News Publisher for what seems to me like gender bias favoring females...In other words; the same kind of implicit bias that caused my own situation to go 'unnoticed' for over a decade or so...Bias against males (Low income white males in particular)...

Every morning I get up and take a shit and read the SJ Mercury News; and almost every day it seems there is some story celebrating the accomplishments of women (which is fine) while denigrating some random man who got in trouble for #metoo (etc) crap at the same time (which is not fine -- it's gender biased...yes you)...

It's the usual thing; yesterday it was some lady who allegedly disproved the efficiency

of a drug Donald Trump supports... It's always pro-women and screw those men...Boys against girls!...Hillary all night and day! Let's all mix it up and fight about a yin yang subject with no real resolution! In other words; the usual divisive liberal crap...So yeah; I'm calling you out on this SJ Mercury News publisher...And I have spoken about this before...

What happened to you? Did you have a really good father or a really bad one? Or did someone do something to you that is causing some kind of vapid PTSD reaction manifesting through your newspaper publishing / bully pulpit? Or are you asexual or homosexual? Or something? Uh oh! Do I seem biased now? Too bad...

Good luck censuring me for censuring you...

The Trump Administration Is Reversing 100 Environmental Rules. Here's the Full List.

I feel compelled to call out the SJ Mercury on their halfassed; biased reporting (they published this liberalleaning story too):

I don't really like Trumps' environmental law rollbacks either; so why did California Governor Brown get the ball rolling first and start this ugly trend by eliminating the need for important environmental reviews many years ago, dumbocrats? And the SJ Mercury thinks all of this is just wonderful so they can cram more people in...

Why is there nothing in the SJ Mercury about this total contradiction? Oh yeah! I forgot! Political divisions caused this blind spot that for some reason only I can see...

Adding to this stinking shit pile of nonsense; dumbocrats Newsom/Weiner also ultimately DESTROYED the democratic process by making laws that encourage ignoring constituents at public hearings; making it all but useless to speak at a city council meeting or any other public hearing for that matter...When the only reason most people make it out to public hearing is for land usage issues...What was that about Trump?

For instance; I will never vote again due to what the State of California did with our beloved Proposition 215; tricking me into voting for a deceptive new law that everyone hates now...And I will never go to another public hearing ever again due to the harassment and stalking and menacing and vandalism that occurred after the last time I got heavily involved in local politics...

I took over the neighborhood as the new self-appointed "Mayor of Southwest Sunnyvale"; and got everyone involved -- but also paid a HUGE price as a dissident (likely since I am a low income white male target)...

But this half-assed environmentalism is something the City of Santa Clara has done literally forever...Destroying the pond at 1333 Lawrence Expressway claiming it was artificial when they knew damn well that it was not artificial...Suggesting to pave over the local wildlife reserve to park cars since they did such a lousy job of planning for the new Levi's Staduim...Noise and disruption for local Levis' stadium neighbors; helicopters flying over during games; lights interfering with SJO flights...etc etc etc...So I guess as long as you don't write about this then it doesn't exist; liberal media...Isn't that right?

Then when you add in the deceptive Proposition 64 that stripped people of their beloved deepened democracy they so enjoyed for almost 20 years; this all makes California just as bad as you're saying that Trump is...

Or the fact that Newsom threatened to hold back dollars from cities who were unwilling to make their beloved hometowns into godawful overcrowded messes as Newsom (and Kamala) so want..."Vibrant communities" in other words...I they had their way; there would be a new housing development at my old high school...But I stopped it...heh heh...Or the fact that Newsom has shut down the whole damn state again due to BLM protests that democrats refuse to admit caused the latest alleged Covid spike...You fucking dumbocratic bastards not only ruined our summer with your badly timed BLM situation causing the latest spike; but you also shut down schools again and bars and pretty much everything else in the process...Was it worth it?

I guess it doesn't really matter because as long as you write that the protests did not cause the latest Covid spike -- like they so obviously did -- then it probably never happened, right SJ Mercury News?

Oh! And don't forget the fact that Newsom also DESTROYED thousands of cool part-time jobs before

shutting down the entire State for Covid...Newsom truly is a mad man on the loose who needs to be gone YESTERDAY!

BECAUSE DEMOCRACY IS DEAD -- AND NEWSOM KILLED IT! WE'RE FREE OR WE'RE DEAD - SO GET IT THROUGH YOUR HEADS!

Adoption of 8 Can't Wait policies is a good beginning, however, reform without more accountability will not be enough. Policies supporting transparency and accountability need to be made if policing is to serve all people equitably, assuring the public safety.

The *Palo Alto Police Department Policy Manual* is posted online due to CA SB978 requiring *all* police policy, operational procedures, and training materials not exempt from the CA Public Records Act be made available for public viewing. Yet 18 PAPD policies are redacted in violation of the law. Redwood City's Police Policy Manual is not redacted. Both are from the same manual provider Lexipol, LLC. <u>https://www.redwoodcity.org/home/showdocument?id=10814</u>

### Updated Analysis of Palo Alto Police Policies for 8 Can't Wait Compliance

### PAPD Polices that Comply with 8 Can't Wait Policy

#### 1. 8 Can't Wait Policy: Duty to Intervene\*

Require officers to intervene and stop excessive force used by other officers and report these incidents immediately to a supervisor.

#### PAPD 300.2.1 DUTY TO INTERCEDE\*\*

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law shall promptly report these observations to a supervisor.

PAPD policy complies with the 8 Can't Wait Duty to Intervene.

However, here illustrates the principal that for a good policy to work, the officers must hold themselves or be held accountable. In early 2018, excessive force was used against a handcuffed person as witnessed by several officers, yet none reported the incident as required to a Supervisor. It was covered up for nearly a year and a half till revealed on a private video.

#### 2. 8 Can't Wait Policy: Ban Chokeholds and Strangleholds

Allowing officers to choke or strangle civilians result in the unnecessary death or serious injury of civilians. Both chokeholds and all other neck restraints must be banned in all cases.

#### PAPD 300.3.4 CAROTID CONTROL HOLD

PAPD eliminated use of the Carotid hold on June 9, 2020.

California has banned the use of chokeholds.

PAPD policy complies with the 8 Can't Wait ban on carotid, choke and strangleholds.

### PAPD Policies that Do Not Comply with 8 Can't Wait

#### 3. 8 Can't Wait Policy: Duty to De-Escalate

Officers shall de-escalate situations when possible, by communicating with subjects, maintaining distance, and otherwise eliminating the need to use force.

PAPD 300.3.1 CONFLICT RESOLUTION AND DE-ESCALATION (added 6-17-2020)

Officers should consider, as time and circumstances reasonably permit, conflict resolution and de-escalation techniques, when responding to all types of calls for service and when engaging in self-initiated activity.

A sound policy can save lives, prevent injury, life long disability and prevent lawsuits while better protecting the public, police officers and the city.

The PAPD policy is vague – it fails to mention that de-escalation is linked to the use of force and makes de-escalation optional, rather than required, when possible. It should be simply titled only for what it is, leaving out "Conflict Resolution" which serves to confuse its basic purpose.

The PAPD policy doesn't comply with the 8 Can't Wait policy.

#### Two Examples of other Police Departments De-escalation Policies.

Though San Francisco is a big city, its policing policies on De-escalation and Use of Force policies are generally excellent, informative at a high level and specifically, and mostly a good fit for Palo Alto. It has adopted all 8 Can't Wait Policies. I encourage you to look to it as an example of enlightened standards of use of force policy, though the Department at times falls short in practice. Go to URL, click on SFPD General Order 5.01: <u>https://www.sanfranciscopolice.org/your-sfpd/policies/use</u>

force#:~:text=The%20Law%20Enforcement%20Code%20of,12%2F21%2F16).

City of Mountain View's Police De-Escalation Policy (not as good as San Francisco's, but I thought it interesting to see a neighbor's policy)

#### 300.2.1 DE-ESCALATION

The principles of de-escalation can enhance contacts with the public and may result in improved decision-making, reduction in situational intensity, and opportunities for outcomes with greater voluntary compliance.

Officers shall, when feasible, employ de-escalation techniques, such as self-control, effective communication, scene assessment and management, and reasonable force options to decrease the likelihood of the need to use force during an incident and to increase the likelihood of voluntary compliance. Officers shall when feasible, attempt to understand and consider the possible reasons why a subject may be noncompliant or resisting arrest. Officers may consider an opportunity to warn about the use of force prior to force being used, when practicable.

#### 4. 8 Can't Wait Policy: Require a Use of Force Continuum

Establish a Force Continuum that restricts the most severe types of force to the most extreme situations and creates clear policy restrictions on the use each police weapon and tactic.

#### USE OF FORCE CONTINUUM [Does not exist]

PAPD website - Initial Review states: \*\*

PAPD policy restricts the application of all types of force to specific types of resistance (PAPD Policy Manual §300, et seq.). For certain types of weapons (e.g., TASER), policy includes special considerations for characteristics such as age, size, or disability (PAPD Policy Manual §309.5.2)

https://www.cityofpaloalto.org/civicax/filebank/blobdload.aspx?t=65803.93&BlobID=77361

The policy sections cited above include the *entire* Use of Force Chapter in the Policy Manual - this is not a policy. TASER policies are on specifically included. In the Manual starting at 306.1 are some policies concerning more restraints and weapons but don't include all deadly weapons. A actual coherent Use of Force Continuum is needed. Identifying all current restraints and weapons of force by technical and common name (not just initials) and how each is deployed should be included in the policy so it can be understood by the public.

A Continuum that is clear, to enable internalization by officers before maximum force is the default is invaluable to good public safety. The PAPD falls short of the 8 Can't Wait policy.

San Francisco policing policy, it devotes 9 pages to its Use of Force Continuum (see pgs. 6-14). <u>https://www.sanfranciscopolice.org/your-sfpd/policies/use</u> force#:~:text=The%20Law%20Enforcement%20Code%20of,12%2F21%2F16).

#### 5. 8 Can't Wait Policy: Require Exhausting All Alternatives Before Shooting

Require officers to exhaust all other alternatives, including non-force and less lethal force options, prior to resorting to deadly force.

#### PAPD 300.4 DEADLY FORCE APPLICATIONS [and Duty to Warn]

PAPD Website - Palo Alto Police Initial Review states:

PAPD policy incorporates California State law requiring all officers to use deadly force only when **necessary** in defense of human life and all officers are required to use all other available resources and techniques, if reasonably safe and feasible. (PAPD Policy Manual §300.4 and California Penal Code §835a) <a href="https://www.cityofpaloalto.org/civicax/filebank/blobdload.aspx?t=62277.21&BlobID=77356">https://www.cityofpaloalto.org/civicax/filebank/blobdload.aspx?t=62277.21&BlobID=77356</a>

Note: a preliminary issue must be raised before fully considering #5. The critical word "necessary" needs to be explicitly included as is "reasonable" in policy 300.4 above. Now it is only to be found though an online search of the penal code citation. "Necessary" is *the* critical standard added for use of deadly force.

California Penal Code 835a also changed the definition of Deadly Force to: Any use of force that creates a substantial risk of causing death or serious bodily injury, including, but not limited to, the discharge of a firearm.

This change in law was in response to the 2018 Sacramento shooting death by police of Stephon Clark, an unarmed young black man.

Police discharging a firearm at a person must be the last force alternative, yet is not mentioned in PAPD's Deadly Force Applications policy. This and adding "necessary" are needed before compliance with 8 Can't Wait policy.

#### 6. 8 Can't Wait Policy: Require Warning Before Shooting

Require officers to give a verbal warning in all situations before using deadly force.

PAPD 300.4 DUTY TO WARN – (last sentence from Deadly Use of Force policy)
(b) Where feasible, the officer shall, prior to the use of force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts.

Palo Alto Police - Initial Review: PAPD policy requires officers to provide a verbal warning, when possible, prior to the use of deadly force, a TASER, or tear gas (PAPD Policy Manual §300.4, §308.9.2, and §309.4).

Of course a warning should be given before shooting, for potentially lethal Kinetic Energy projectiles (KEP's), tear gas and TASERS. These are included in the policies cited above because they can be lethal, cause serious injury or life long disability. A warning is required for use, but the description of what is being used and how it is deployed is not always clear which is not adequate.

What container is the tear gas in and how it is deployed? Are beanbags used against people (blunt force), and are any types of covered (rubber) bullets or other devices used by the PAPD?

All current weaponry should be include in the Policy Manual by technical and common name, not just initials, with the required Duty to Warn and for a Use of Force Continuum Policy.

The Duty to Warn should form its own subsection (c) under PAPD policy 300.4 for clarity.

More work must be done before PAPD policy is specific and complete to meet compliance with 8 Can't Wait .

#### 7. 8 Can't Wait Policy: Ban shooting at moving vehicles in all cases.

#### PAPD 300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others. Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

The PAPD policy is inherently dangerous and internally inconsistent which makes it even more dangerous.

First the policy notes that shooting at a moving vehicle is rarely effective, and wisely suggests officers move out of the vehicles way. But then it allows officers to shoot at a

moving vehicle or its occupants if occupants or the vehicle pose a "threat", whatever that means, or deadly force is directed at officers or others. But then the policy forbids shooting at any part of a vehicle to disable it (tires even?) just after it allowed shooting at a vehicle.

This makes no sense *if* you are going to shoot at moving vehicles, don't you want to try to disable it?

The policy ignores the possibility of children or other innocent people being inside a vehicle that may be injured or killed along with bystanders.

If now an unsafe policing policy is to be justified and continued by the specter of unsafe dining on University and Cal Avenues, then the city should put up protective barriers rather than allow policies supporting potential dangerous shootouts.

There were 62 deaths last year in this country as a result of police shooting at moving vehicles and an unknown number of injuries according to 8 Can't Wait. The only way to comply with 8 Can't Wait is to get rid of this policy.

#### 8. 8 Can't Wait Policy: Require Comprehensive Reporting

Require officers to report each time they use force or threaten to use force against civilians. Comprehensive reporting includes requiring officers to report whenever they point a firearm at someone, in addition to all other types of force.

#### PAPD 300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this [department/office] shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the [Department/Office] may require the completion of additional report forms, as specified in [department/office] policy, procedure or law.

Palo Alto Police - Initial Review:

PAPD policy requires officers to promptly, completely and accurately document any use of force (PAPD Policy Manual §300.5). Policy also requires officers to document any time they point a TASER or firearm at a person (PAPD Policy Manual §309.6 and §344.2.2).

Use of Force Reporting policy doesn't include firearms though other weaponry is (PAPD policies, 300.5, 300.5.1, 3005.2). Shooting, shooting at, or pointing a firearm at someone must be added to the Use of Force reporting requirements, not 153 pages later where firearms are mentioned in policy 344.2.2 NON-CRIMINAL ACTIVITY.

This PAPD policy does not comply with 8 Can't Wait.

Thank you for your swift response and your willingness to work with us. MOBILE advertising is the marketing practice of placing a logo on a vehicle thus turning it into a mobile billboard. This can be achieved by simply placing a logo on the surface of the vehicle, but it is becoming more common today to use vinyl sheets as decals because these can be removed with relative ease, making it much less expensive to change from one advertisement to another. Vehicles with large, flat surfaces, such as buses and light-rail carriages, are fairly easy to work with, though smaller cars with curved surfaces can also be wrapped in this manner. MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps," that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

What does the company get out of this type of ad strategy? Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. Our DRINK shall provide experts that would handle the advert placing on your car. You will receive an up front payment of \$300 inform of check via courier service for accepting to carry this advert on your car. to this effect you are advise to check your email regularly to get update as to know when your upfront payment will arrive along with Graphic Artist address.

1) You will receive a Certified Check. As soon as you receive the check, you will cash the check for the decal wrapping on your car, deduct \$300 as your up-front payment. The rest of the funds should be transferred to the Graphic artist that will wrap the decal on your car. All you need is to confirm the acceptance and understanding of this email.

2) You will make a transfer of funds to the Graphic artist at the nearest walmart outlet in your area, the Info which you will make the transfer to will be emailed to you soon.

3) We'll like to have some Information about your car.

i) Type of Car and Color

ii) Model/Year :

iii) Present Condition and the Mileage:

Applicant information:

Full Name: Full Contact Address: City,State,Zip code Phone Number:

Note: Please, confirm that you did receive this message so that we can process funds that would be sent to you for the car advert.

### Longtime Santa Clara County education trustee censured for alleged gender bias

Moving right along; I also wanted to call out the SJ Mercury News Publisher for what seems to me like gender bias favoring females...In other words; the same kind of implicit bias that caused my own situation to go 'unnoticed' for over a decade or so...Bias against males (Low income white males in particular)...

Every morning I get up and take a shit and read the SJ Mercury News; and almost every day it seems there is some story celebrating the accomplishments of women (which is fine) while denigrating some random man who got in trouble for #metoo (etc) crap at the same time (which is not fine -- it's gender biased...yes you)...

It's the usual thing; yesterday it was some lady who allegedly disproved the efficiency

of a drug Donald Trump supports... It's always pro-women and screw those men...Boys against girls!...Hillary all night and day! Let's all mix it up and fight about a yin yang subject with no real resolution! In other words; the usual divisive liberal crap...So yeah; I'm calling you out on this SJ Mercury News publisher...And I have spoken about this before...

What happened to you? Did you have a really good father or a really bad one? Or did someone do something to you that is causing some kind of vapid PTSD reaction manifesting through your newspaper publishing / bully pulpit? Or are you asexual or homosexual? Or something? Uh oh! Do I seem biased now? Too bad...

Good luck censuring me for censuring you...

Thank you for your swift response and your willingness to work with us. MOBILE advertising is the marketing practice of placing a logo on a vehicle thus turning it into a mobile billboard. This can be achieved by simply placing a logo on the surface of the vehicle, but it is becoming more common today to use vinyl sheets as decals because these can be removed with relative ease, making it much less expensive to change from one advertisement to another. Vehicles with large, flat surfaces, such as buses and light-rail carriages, are fairly easy to work with, though smaller cars with curved surfaces can also be wrapped in this manner. MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

#### How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps," that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

What does the company get out of this type of ad strategy?

Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. Our DRINK shall provide experts that would handle the advert placing on your car. You will receive an up front payment of \$300 inform of check via courier service for accepting to carry this advert on your car. to this effect you are advise to check your email regularly to get update as to know when your upfront payment will arrive along with Graphic Artist address.

1) You will receive a Certified Check. As soon as you receive the check, you will cash the check for the decal wrapping on your car, deduct \$300 as your up-front payment. The rest of the funds should be transferred to the Graphic artist that will wrap the decal on your car. All you need is to confirm the acceptance and understanding of this email.

2) You will make a transfer of funds to the Graphic artist at the nearest walmart outlet in your area, the Info which you will make the transfer to will be emailed to you soon.

3) We'll like to have some Information about your car.

"BY THE WAY: After Leigh Weimers ran an article in the SJ Mercury News (in the early 2000s) about the ducks in my neighborhood; that is when the stalking and harassment at my residence began in earnest (Leigh was asked to retire shortly after this) Leigh just sort of showed up out of the blue one day then ended up running an article about the ducks; leading to my privacy being violated and subsequent

harassment and stalking...

Then the Bush administration chimed in with some bird flu propaganda bullshit (GO TO: Bird Flu Hype: It's Not What You Think) and this is what caused Mister Olenak to pour bleach into the duck food across the street (animal cruelty etc -- zero charges filed against him for some odd reason) leading to Olenak assaulting me on my property and the police letting him go even though he assaulted me and made criminal threats to my Dad...

Then Mister Olenak was used as a "witness to duck feeding" (BWAHAHAHAHAHAHAHA ex-Mayor Nadler gave me permission to feed these ducks at a Santa Clara City Council meeting) then the City of Santa Clara later DESTROYED THIS EVIDENCE AND OBSTRUCTED JUSTICE IN THE PROCESS TO MAKE IT GO AWAY!

But it didn't work; I am still here holding that shitty city accountable; and I will inevitably eventually collect a healthy settlement from them too for all of this discrimination and bullshit that would not be allowed to happen to (for instance) an African-American or an empowered liberal woman or pretty much anyone else for that matter...

(Santa Clara gives "women of courage" awards to women; but there is no equivalent

for men -- which is part of a pattern and practice of gender discrimination not only in this entire region; but also the City of Santa Clara)

So the SJ Mercury News is at least partially responsible for violating my privacy rights and causing a multi-year police-sponsored stalking/harassment/menacing/vandalism etc campaign against the residence of a senior citizen who ended up suffering from a stroke after the multi-year campaign was all over...All for now..."

Dear HRC Commissioners,

Hope you are all keeping well. I appreciate all the work you are currently doing in reimagining how our police dept will serve and protect our community and I hope to continue to actively engage in this very important conversation to help support and advance this work.

Given the HRC is looking at reform within the Palo Alto police dept and has been opening up public comments, your feedback to Supervisor Ellenberg would be invaluable. I particularly appreciated those who wisely shared that the last forum that was provided was not the format that we were likely to hear from those most impacted by the injustices within our community. Commissioner Smith handled those suggestions well & by now, hope additional contacts with the public have taken place to hear their experiences. Please join this meeting with Supervisor Ellenberg if you are able. I believe it is an excellent opportunity to share perspectives, share your process and hear from others.

Here is some information regarding other meetings Supervisor Ellenberg has held on this issue. The link to register is within the article & provided here: bit.ly/2zIUHRq.

https://www.sfgate.com/news/bayarea/article/Supervisor-Ellenberg-Invites-Residents-To-Share-15414796.php

I hope you are able to join. I believe the timing to be excellent.

Warm regards, Prameela Bartholomeusz Palo Alto Resident & Community Advocate

I just realized that the GHC contact has been slightly wrong the whole time; meaning all of my online litigation that I sent in the past few months...So I will attempt to pass on the important parts in this new email thread so GHC gets the low down on the Sunnyvale down low...

The Trump Administration Is Reversing 100 Environmental Rules. Here's the Full List.

I feel compelled to call out the SJ Mercury on their halfassed; biased reporting (they published this liberalleaning story too):

I don't really like Trumps' environmental law rollbacks either; so why did California Governor Brown get the ball rolling first and start this ugly trend by eliminating the need for important environmental reviews many years ago, dumbocrats? And the SJ Mercury thinks all of this is just wonderful so they can cram more people in...

Why is there nothing in the SJ Mercury about this total contradiction? Oh yeah! I forgot! Political divisions caused this blind spot that for some reason only I can see...

Adding to this stinking shit pile of nonsense; dumbocrats Newsom/Weiner also ultimately DESTROYED the democratic process by making laws that encourage ignoring constituents at public hearings; making it all but useless to speak at a city council meeting or any other public hearing for that matter...When the only reason most people make it out to public hearing is for land usage issues...What was that about Trump?

For instance; I will never vote again due to what the State of California did with our beloved Proposition 215; tricking me into voting for a deceptive new law that everyone hates now...And I will never go to another public hearing ever again due to the harassment and stalking and menacing and vandalism that occurred after the last time I got heavily involved in local politics...

I took over the neighborhood as the new self-appointed "Mayor of Southwest Sunnyvale"; and got everyone involved -- but also paid a HUGE price as a dissident (likely since I am a low income white male target)... But this half-assed environmentalism is something the City of Santa Clara has done literally forever...Destroying the pond at 1333 Lawrence Expressway claiming it was artificial when they knew damn well that it was not artificial...Suggesting to pave over the local wildlife reserve to park cars since they did such a lousy job of planning for the new Levi's Staduim...Noise and disruption for local Levis' stadium neighbors; helicopters flying over during games; lights interfering with SJO flights...etc etc etc...So I guess as long as you don't write about this then it doesn't exist; liberal media...Isn't that right?

Then when you add in the deceptive Proposition 64 that stripped people of their beloved deepened democracy they so enjoyed for almost 20 years; this all makes California just as bad as you're saying that Trump is...

Or the fact that Newsom threatened to hold back dollars from cities who were unwilling to make their beloved hometowns into godawful overcrowded messes as Newsom (and Kamala) so want..."Vibrant communities" in other words...I they had their way; there would be a new housing development at my old high school...But I stopped it...heh heh...Or the fact that Newsom has shut down the whole damn state again due to BLM protests that democrats refuse to admit caused the latest alleged Covid spike...You fucking dumbocratic bastards not only ruined our summer with your badly timed BLM situation causing the latest spike; but you also shut down schools again and bars and pretty much everything else in the process...Was it worth it?

I guess it doesn't really matter because as long as you write that the protests did not cause the latest Covid spike -- like they so obviously did -- then it probably never happened, right SJ Mercury News?

Oh! And don't forget the fact that Newsom also DESTROYED thousands of cool part-time jobs before shutting down the entire State for Covid...Newsom truly is a mad man on the loose who needs to be gone YESTERDAY!

#### to me

Thank you for your swift response and your willingness to work with us. MOBILE advertising is the marketing practice of placing a logo on a vehicle thus turning it into a mobile billboard. This can be achieved by simply placing a logo on the surface of the vehicle, but it is becoming more common today to use vinyl sheets as decals because these can be removed with relative ease, making it much less expensive to change from one advertisement to another. Vehicles with large, flat surfaces, such as buses and light-rail carriages, are fairly easy to work with, though smaller cars with curved surfaces can also be wrapped in this manner. MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps,"that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

#### What does the company get out of this type of ad strategy?

Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. Our DRINK shall provide experts that would handle the advert placing on your car. You will receive an up front payment of \$300 inform of check via courier service for accepting to carry this advert on your car. to this effect you are advise to check your email regularly to get update as to know when your upfront payment will arrive along with Graphic Artist address.

1) You will receive a Certified Check. As soon as you receive the check, you will cash the check for the decal wrapping on your car, deduct \$300 as your up-front payment. The rest of the funds should be transferred to the Graphic artist that will wrap the decal on your car. All you need is to confirm the acceptance and understanding of this email.

2) You will make a transfer of funds to the Graphic artist at the nearest walmart outlet in your area, the Info which you will make the transfer to will be emailed to you soon.

3) We'll like to have some Information about your car.

i) Type of Car and Color

ii) Model/Year :

iii) Present Condition and the Mileage:

Applicant information:

Full Name: Full Contact Address: City,State,Zip code Phone Number:

Note: Please, confirm that you did receive this message so that we can process funds that would be sent to you for the car advert.

It is very easy and simple, no application fees required. Get back with the above details if you are interested in these offer.

All other instructions will be sent out to you ASAP.

## EXCERPTS FROM THE EMAIL THREAD: "VEHICLE WRAP <newkiaoga@outlook.com>

Sun, May 10, 9:46 PM

Thank you for your swift response and your willingness to work with us. MOBILE advertising is the marketing practice of placing a logo on a vehicle thus turning it into a mobile billboard. This can be achieved by simply placing a logo on the surface of the vehicle, but it is becoming more common today to use vinyl sheets as decals because these can be removed with relative ease, making it much less expensive to change from one advertisement to another. Vehicles with large, flat surfaces, such as buses and light-rail carriages, are fairly easy to work with, though smaller cars with curved surfaces can also be wrapped in this manner. MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps," that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

What does the company get out of this type of ad strategy? Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. Our DRINK shall provide experts that would handle the advert placing on your car. You will receive an up front payment of \$300 inform of check via courier service for accepting to carry this advert on your car. to this effect you are advise to check your email regularly to get update as to know when your upfront payment will arrive along with Graphic Artist address.

1) You will receive a Certified Check. As soon as you receive the check, you will cash the check for the decal wrapping on your car, deduct \$300 as your up-front payment. The rest of the funds should be transferred to the Graphic artist that will wrap the decal on your car. All you need is to confirm the acceptance and understanding of this email.

2) You will make a transfer of funds to the Graphic artist at the nearest walmart outlet in your area, the Info which you will make the transfer to will be emailed to you soon.

3) We'll like to have some Information about your car.

i) Type of Car and Color

ii) Model/Year :

iii) Present Condition and the Mileage:

Applicant information:

Full Name: Full Contact Address: City,State,Zip code Phone Number:

Note: Please, confirm that you did receive this message so that we can process funds that would be sent to you for the car advert.

It is very easy and simple, no application fees required. Get back with the above details if you are interested in these offer.

All other instructions will be sent out to you ASAP.

I......Confirm to have received this email and understand the content.

The Trump Administration Is Reversing 100 Environmental Rules. Here's the Full List.

I feel compelled to call out the SJ Mercury on their halfassed; biased reporting (they published this liberalleaning story too):

I don't really like Trumps' environmental law rollbacks either; so why did California Governor Brown get the ball rolling first and start this ugly trend by eliminating the need for important environmental reviews many years ago, dumbocrats? And the SJ Mercury thinks all of this is just wonderful so they can cram more people in...

Why is there nothing in the SJ Mercury about this total contradiction? Oh yeah! I forgot! Political divisions caused this blind spot that for some reason only I can see...

Adding to this stinking shit pile of nonsense; dumbocrats Newsom/Weiner also ultimately DESTROYED the democratic process by making laws that encourage ignoring constituents at public hearings; making it all but useless to speak at a city council meeting or any other public hearing for that matter...When the only reason most people make it out to public hearing is for land usage issues...What was that about Trump?

For instance; I will never vote again due to what the State of California did with our beloved Proposition 215; tricking me into voting for a deceptive new law that everyone hates now...And I will never go to another public hearing ever again due to the harassment and stalking and menacing and vandalism that occurred after the last time I got heavily involved in local politics...

I took over the neighborhood as the new self-appointed "Mayor of Southwest Sunnyvale"; and got everyone involved -- but also paid a HUGE price as a dissident (likely since I am a low income white male target)...

But this half-assed environmentalism is something the City of Santa Clara has done literally forever...Destroying the pond at 1333 Lawrence Expressway claiming it was artificial when they knew damn well that it was not artificial...Suggesting to pave over the local wildlife reserve to park cars since they did such a lousy job of planning for the new Levi's Staduim...Noise and disruption for local Levis' stadium neighbors; helicopters flying over during games; lights interfering with SJO flights...etc etc etc...So I guess as long as you don't write about this then it doesn't exist; liberal media...Isn't that right?

Then when you add in the deceptive Proposition 64 that stripped people of their beloved deepened democracy they so enjoyed for almost 20 years; this all makes California just as bad as you're saying that Trump is...

Or the fact that Newsom threatened to hold back dollars from cities who were unwilling to make their beloved hometowns into godawful overcrowded messes as Newsom (and Kamala) so want..."Vibrant communities" in other words...I they had their way; there would be a new housing development at my old high school...But I stopped it...heh heh...Or the fact that Newsom has shut down the whole damn state again due to BLM protests that democrats refuse to admit caused the latest alleged Covid spike...You fucking dumbocratic bastards not only ruined our summer with your badly timed BLM situation causing the latest spike; but you also shut down schools again and bars and pretty much everything else in the process...Was it worth it?

I guess it doesn't really matter because as long as you write that the protests did not cause the latest Covid spike -- like they so obviously did -- then it probably never happened, right SJ Mercury News?

Oh! And don't forget the fact that Newsom also DESTROYED thousands of cool part-time jobs before shutting down the entire State for Covid...Newsom truly is a mad man on the loose who needs to be gone YESTERDAY!

BECAUSE DEMOCRACY IS DEAD -- AND NEWSOM KILLED IT! WE'RE FREE OR WE'RE DEAD - SO GET IT

MOBILE ADVERTISING is available to anybody irrespective of the vehicle you drive.

We are currently seeking to employ individuals worldwide.

#### How it works?

Here's the basic premise of the "paid to drive" concept: Our DRINK® seeks people regular citizens, professional drivers to go about their normal routine as they usually do, only with a small advert of our DRINK plastered on the driver's door of your car. The ads are typically vinyl decals, also known as "auto wraps," that almost seem to be painted on the vehicle, and which will cover any portion of your car's exterior surface.

What does the company get out of this type of ad strategy?

Lots of exposure and awareness. The auto wraps tend to be colorful, eye-catching and attract lots of attention. Plus, it's a form of advertising with a captive audience, meaning people who are stuck in traffic can't avoid seeing the wrapped car alongside them. This program will last for 6 months and you can decide to extend your contract after the initial 6 months.

You will be compensated with \$300 per week which is essentially a "rental"payment for letting our company use the space no fee is required from you. ## "Robert F Kennedy Junior on Bill Gates:

"Vaccines, for Bill Gates, are a strategic philanthropy that feed his many vaccinerelated businesses (including Microsoft's ambition to control a global vac ID enterprise) and give him dictatorial control over global health policy—the spear tip of corporate neo-imperialism. Gates' obsession with vaccines seems fueled by a messianic conviction that he is ordained to save the world with technology and a godlike willingness to experiment with the lives of lesser humans.

Promising to eradicate Polio with \$1.2 billion, Gates took control of India 's National Advisory Board (NAB) and mandated 50 polio vaccines (up from 5) to every child before age 5. Indian doctors blame the Gates campaign for a devastating vaccinestrain polio epidemic that paralyzed 496,000 children between 2000 and 2017. In 2017, the Indian Government dialed back Gates' vaccine regimen and evicted Gates and his cronies from the NAB. Polio paralysis rates dropped precipitously. In 2017, the World Health Organization reluctantly admitted that the global polio explosion is predominantly vaccine strain, meaning it is coming from Gates' Vaccine Program. The most frightening epidemics in Congo, the Philippines, and Afghanistan are all linked to Gates' vaccines. By 2018, <sup>3</sup>/<sub>4</sub> of global polio cases were from Gates' vaccines.

In 2014, the Gates Foundation funded tests of experimental HPV vaccines, developed by GSK and Merck, on 23,000 young girls in remote Indian provinces. Approximately 1,200 suffered severe side effects, including autoimmune and fertility disorders. Seven died. Indian government investigations charged that Gates funded researchers committed pervasive ethical violations: pressuring vulnerable village girls into the trial, bullying parents, forging consent forms, and refusing medical care to the injured girls. The case is now in the country's Supreme Court..."

#### **DA** is tone deaf

Dear Editor: Regarding your story on Thursday, "No charges in violent arrest," I'm angered that District Attorney Jeff Rosen has yet again failed to bring criminal charges against a rogue and violent Palo Alto cop, agent Thomas DeStefano.

The victim of DeStefano's misconduct was Julio Arevalo, a Buena Vista Mobile Home resident. Arevalo was gratuitously brutalized outside of Happy Donuts on July 10, 2019. It was all captured on video. Recently uploaded to YouTube. Watch the video! You be the jury!

Arevalo was, without cause, slammed to the concrete, lost consciousness and bones around his eye were shattered. If ever criminal charges for use of excessive force are warranted, this is the case.

We must consider recalling Rosen as our elected District Attorney. He is tone deaf when the alleged criminal is a cop. In the alternative, we must mount a political campaign to educate the public of the preferential charging practices Rosen routinely engages in when exercising prosecutorial discretion involving cops.

If Rosen is allowed to remain in office we must insist that he form an independent unit, a police crimes team, with no ties to local law enforcement and given the sole discretion to charge cops when the evidence warrants it.

This team would consist of investigators, retired cops, former prosecutors, defense attorneys and victims of police violence. All would be highly trained in the nuance of appropriate police practices and on-the-job conduct that crosses the line from good policing to criminal behavior.

Hi--

I learned from Palo Alto NextDoor that this is the appropriate place to let the city know about an issue regarding Black Lives Matter. If that's not the case, can you direct me to the correct person?

Last evening, July 24, a man was walking by our house, stepped onto our property, took our Black Lives Matter sign and threw it into oncoming traffic. We have a video of the event, but it's hard to make out his features.

We live at 2240 Middlefield across from Greene Middle School.

Thanks and be well, Susan Choquette

Hello,

I've started seeing more instances of literature left by people's BLM sign and a link to report it here too. I found one of the 'white lives matter' flyers next to my sign the morning of 7/22, on Ramona @ E. Meadow. Another one was spotted down the street from me. I reported it to the PAPD tip line, received a follow up text to call in, which I did. Best,

Mary Jo Ricci

Dear Council Member Tanaka and members of the HRC,

Please see below my correspondence with the Mayor. Also no one has told me anything about whether there are increased patrols on my street.

Thank you so much.

Dear Mayor Fine,

Thank you for following up.

This response from the PD is simply unacceptable. I'm seeing reports on Next Door and Facebook about other instances. Including photos of the flyer and at least one person who said they reported a very similar incident to the Palo Alto police a few weeks ago.

They need to do better, and I hope you will push them on this.

Dear City Council members and Police Chief Jonsen,

My name is Caroline Schroeder, and I am a resident of Palo Alto. I'm writing to alert you to a hate crime that occurred across the street from me last night/this morning. While I am pleased with speed of the response from the police when I and my neighbors reported it, I want to alert you to the event and share ongoing concerns about the incident. I woke up this morning to see that the Black Lives Matter yard sign across the street facing my house was defaced. A "White Lives Matter" sign (printed, not hand written) had been taped over it. My own Black Lives Matter sign in my yard was untouched. I took pictures of the defaced sign, removed it so my son wouldn't see it, alerted my neighbors, and brought the defaced sign to their door. They told me there had also been a racist screed containing threatening language on the sidewalk earlier, as well. The screed was also printed out on a piece of paper. Someone (we don't know who) had removed it before I saw what had happened.

My household includes Black people. Finding this threatening hate crime across the street facing my house when I woke up was terrifying.

The police took my report and my neighbors' report and are investigating, which is good. I understand there will also be a press release.

After I posted about the incident on my elementary school's FaceBook page, I heard from other parents that these incidents have happened elsewhere in Palo Alto recently. The officer who took my report indicated that he was not aware of other incidents; perhaps they have not been reported. They need to be investigated.

I am writing to ask that:

-you recognize this as a hate crime and threat to our community's safety and wellbeing;

-this incident be investigated thoroughly as a hate crime by the appropriate investigators

-the possibility of other incidents also be investigated thoroughly

-extra police patrols be assigned to our street, especially at night

Thank you,

Caroline T. Schroeder

Dear Mayor Fine,

Steven Lee and I have both asked people on social media to report and to email the HRC.

One person on Facebook said their friend/neighbor made a report about the same type of incident (defaced BLM sign) a couple of weeks ago. This person said the police said it was vandalism and there wasn't much they could do. When I called it in, the operator first said my neighbor would have to make a report because it was vandalism. I said no, this is a hate crime. Then she said someone would call me back.

I hope you and the PD understand that these acts are designed to threaten and intimidate the Black members of our community. We don't know who they are and thus don't know if they are capable of even more harm. This is outrageous and the PD needs to take it more seriously.

Additionally no one from the police has told me whether there are increased patrols on our street. I have told them that my household has both Black and white people in it.

Yours, Caroline T. Schroeder

Hi folks,

I would like to let you know that my Black Lives Matter yard sign was stolen from my yard. It was along Greer Road, a bit south of Oregon Expressway. It was stolen on June 24. (Fortunately, I've just gotten a new sign.) I'm sure the sign was stolen because just the placard was missing; the stand was still stuck in the ground. The sign was nowhere to be found nearby.

I've been told that there's been some question about whether this sort of thing is happening in Palo Alto, so I thought I would register my experience to make sure it's known.

Thanks, Terry Roberts, Greer Road, Palo Alto

Thanks for your reply, Chief Jonsen. I'm not sure that there's anything that can be done about the sign or the person who took it at this point, so the patrol personnel might as well stick to working on something that will make more of a difference for the city. If I'm wrong about that, I'd be happy to file a report.

Cheers, -Terry

PERSPECTIVE

## Time has come for DA offices to create Police Crimes Units

By Aram James and Richard Konda

he Coalition for Justice and Accountability came into existence in 2003 after Bich Cau Thi Tran was shot and killed by San Jose Police Officer Chad Marshall, CJA has over the past 17 years been an advocate for humane policing practices including the banning of the use of Tasers by law enforcement. Members of CJA have participated on panels, addressing police misconduct, Taser task forces, city councils and other public bodies throughout the Bay Area. CJA has conducted workshops on police misconduct and also on the inherent dangers of Tasers.

The May 25 brutal, all most 9-minutes long, very public police torture and murder of George Floyd, set off, yet again, reexamination of both the history of police violence targeted at African-Americans, and the present moment in our history (now) of more of the same endless police murders. Nothing seems to change, except the names of the victims.

Our nation had a similar racial justice and police violence reckoning after another very public series of police murders. Eric Garner's murder on July 17, 2014, and the murder of Michael Brown on Aug. 9, 2014, set that spark.

And, sadly, but predictably, there have been countless other, similar extrajudicial police murders, of both Black men and women. And almost without exception, charges are not brought and almost never do convictions result.

After each police murder, there are renewed calls for police reform, bodyworn cameras, bans on choke holds, ban on Tasers, demilitarization of the police, better vetting in the hiring process of new police, civilian review boards with more teeth, independent police auditors, and the wholesale review of all police practices. But nothing yet has come even close to ending the cvcle of police violence.

Uninterrupted, for 400 years, from the beginning of American policing, with its roots deeply tied to slavery, with slave patrols, and related institutions, all with an unrelenting desire to punish, exclude, segregate and control African-American bodies and souls. All actions consistent with the peculiar notion to perpetuate white power, white supremacy, and each seemingly imbedded in our culture and institutions in perpetuity.

And most certainly imbedded in our criminal injustice system reflected not only by endless police killings of people of color, but a system of mass incarceration, larger than any in the world, grossly disproportionally caging African-Americans, and people of color.

Recounted in Eddie S. Glaude JR's recently released book: "Begin Again: James Baldwin's America and Its Urgent Lessons for Our Own," are Baldwin's comments, directly to the editors in an Esquire Magazine interview in July 1968 (speaking to the editors as though speaking to white America):

"In not trying to accuse you, you know. That's not the point. But you have a lot to face ... All that can save you now is your confrontation with your own history .... which is not your past but your present. Nobody cares what happened in the past. One can't afford to care what happened in the past. But your history has led you to this moment, and you can only begin to change yourself and save yourself by looking at what you are doing in the name of your history."

If our country is to survive, the time is now to confront our long and unabated history of race based police violence.

## Policy Recommendations

Absent a complete defunding or abolition of police departments, we must have concrete and measurable ways to hold police accountable for their violent and racists behavior. Reform alone simply is not sufficient. History has repeatedly taught us this lesson.

If police see that they will not be handled by prosecutors with kid gloves, but, rather, like other community members — routinely be charged, prosecuted, and if the evidence warrants it, convicted for their violent crimes, and sent to jail or prison trust in the criminal justice system will finally have a chance to develop in communities that for too long have been distrustful and estranged from a system that has given them no reason to trust it.

How do we get there? Every district attorney's office in this country must have a robust police crimes team. This team must be fully independent of law enforcement and be given the sole ability to exercise charging decisions (prosecutorial discretion) to prosecute police without political pressure from police unions, elected prosecutors whose election is often perceived as depending on not prosecuting bad cops or if they do, making certain that any punishment is sufficiently light that bad cops are allowed to remain employed. Employed with a license to continue to terrorize the very communities they've been sworn to protect.

The police crimes team would be a multidisciplinary unit made up of retired police officers, former prosecutors, experienced investigators, former

criminal defense attorneys, former victims of violent police crimes, academics whose specialty is the history and practice of policing. Each member of the team would be highly trained in the nuance of appropriate police practices and on-the job-conduct that crosses the line from good policing to criminal conduct.

This unit would also be charged with the responsibility of taking to jury trial each of the cases that the police crime team files. This would avoid the "trial for optics only syndrome."

In the few deadly force cases that are actually taken to trial it is often a mismatch by design. The district attorney's office, with no special unit trained to take on defense attorneys for the police - who often do nothing but defend police in their practice, are the heavy weight in the court fighting against an overmatched under trained prosecutor. No surprise that more often than not police who engage in deadly force and are actually charged walk free after a jury trial. The establishment of a robust police crimes team will finally even the odds for conviction.
