

COVID-19 Prevention Checklist

The health and safety of our participants, teaching artists and staff is our top priority.

DAILY CHECK-IN

- Masks will be required for all participants and family members/caregivers who drop off or pick up participants at the theatre (if possible, we request a well-fitted 3-layer cotton mask or paper KN95 non-medical mask, for best coverage);
- When you arrive at the theatre, all participants and family members/caregivers who are present for drop off, will go to a handwashing station;
- Once hands are clean, participants will go to the front desk for a wellness check;
- After the wellness check, participants will be directed to the location of their class, following one-way, marked paths through the building.

WHILE AT CLASS

- We'll be keeping participants in consistent groups, with no mixing between different classes;
- Teaching artists will work with up to 12 kids per session, and will be required to complete a 14-day quarantine period in between teaching sessions;
- All sessions will take place outdoors OR in well-ventilated rooms;
- All interior areas at the Children's Theatre have been assessed to determine the maximum number of participants that may be in any given space, to allow for proper physical distancing procedures (6' per person guideline);

ADDITIONAL PRECAUTIONS

- If a participant or family member is sick, they must stay home;
- To the extent possible, transportation to and from classes should be direct-to-class and direct-to-home;
- We ask that any families who travel out of the area/state to self-quarantine for 14 days prior to class attendance, and staff will follow the same guideline;
- The theatre and all ancillary spaces will be deep cleaned and disinfected daily, with additional bleach wipe-downs throughout the day;
- Please be aware that classes will be subject to closure per CDC recommendations if there is an updated health advisory.
