

Please make your FANTASTIC wildflower display available to us – either: to take on hikes 1. digital photos on website (we'll take it from there) 2. or in a book (we'll pay a lot?)

An open space trail guide is a long term project that I am working on (the busier I am the less time I have to work on it). The soonest version of that is still a fairly long way off.

This request will spur me on to get out an easy to use wildflower guide fairly quickly. The first version will probably be laminated sheets with two pictures and descriptions on each side, in a small binder and will be available in early July. My best guess is that we will have two copies available to be borrowed at the interpretive center (possibly at the entrance station on weekends).

Once that is completed a version that is downloadable shouldn't be too hard to come up with.

A sellable version is a bit more involved; but, that may come about in the future also.
