

What happened to the scale model of the park? Where is the scale model of the park?

Unfortunately the three dimensional relief map of Foothills Park has been showing its age (three decades or more). Over the years, roads have pulled loose, information about the park has changed, etc... Being as old as the map is, it is also fragile.

Repairs and refurbishing are planned; unfortunately, they are a fairly low priority in terms of our daily todo list. The best I can say is that the map will probably return at some point in the future (there is a possibility that we will be unable to repair it – we have no plans to purchase a replacement).

11/25/2007 Note: The 3-dimensional map of Foothills Park has been adopted by t Friends of Foothills Park and is anticipated to return in March or April 2008.
