

LEGEND

- ① Preferred alignment (horizontal) Centerline of sidewalk
- Proposed fiber optic conduit, with 12" clear zone

DOWNTOWN AREAS:
Keep clear of tree wells

CAUTION:
This drawing is a diagrammatic and shows the relative location of underground utilities. See Utility Standards.

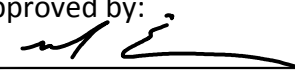

- NOTES:**
1. The design drawings, profiles and specifications for all work must be prepared by a licensed Engineer.
 2. Potholes, sending/recieving pits must be backfilled per Standard Drawing 401.
 3. Verify that existing basements under sidewalk area do not conflict with proposed cable alignment.
 4. Conduit to be located no closer than 12" from any existing utilities. Greater distance from high voltage cables is required.
 5. Location of utilities shall be field verified prior to construction.
