Notwithstanding [Chapter 8.10](#), Group 1 and Group 2 Trees may be relocated upon issuance of a Protected Tree Relocation Permit from the director in consultation with the ~~city~~

~~arborist~~ urban forester. For purposes of this section, authorized relocation of Group 1 and 2 Trees shall not constitute removal. The requirements for a Protected Tree Relocation Permit shall be as follow:

(1) The applicant shall submit a proposed Tree Relocation and Maintenance Plan (TRMP) that (i) evaluates the feasibility of moving the tree to another location on or near the development site; and (ii) identifies the actions to be taken to increase the likelihood that relocation is successful including the following information: pre-relocation irrigation, relocation procedures, monitoring inspections, and post-relocation tree irrigation and maintenance.

(2) If the director determines the proposed relocation is feasible, the director shall issue a Protected Tree Relocation Permit requiring the following:

(A) The Protected Tree Relocation Permit shall specify the actions required to increase the likelihood that relocation is successful.

(B) Location of relocated trees is subject to review and approval by the director in consultation with the ~~city arborist~~ urban forester.

(C) If the relocated tree does not survive after a period of five years, the relocated tree shall be replaced with a tree or a combination of trees and tree value standards consistent with ~~Section 3.20, Table 3-1~~ Tree Canopy Replacement provisions, of the *Tree and Landscape Technical Manual*. If, after relocation, a relocated tree is disfigured, leaning with supports needed, or in decline with a dead top or dieback of more than twenty-five percent, the tree shall be considered a total loss and replaced as described in this subsection.

(D) The applicant shall provide a security guarantee for relocated trees, as determined by the director of planning and development services, in consultation with the ~~city arborist~~ urban forester, in an amount consistent with the *Tree and Landscape Technical Manual*.

(d) Removal of Group 2 Trees.

Notwithstanding [Chapter 8.10](#), removal of Group 2 Trees shall be allowed in the HD district, upon issuance of a Protected Tree Removal Permit from the director in consultation with the city arborist. The requirements for a Protected Tree Removal Permit shall be as follows:

(1) Group 2 Trees that are removed without being relocated shall be replaced in accordance with the ratios set forth in ~~Table 3-1~~ of the City of Palo Alto *Tree and Landscape Technical Manual* in the following way:

(A) The Protected Tree Removal Permit issued shall stipulate the tree replacement requirements for the removed tree, including number of trees, size, location, and irrigation. The number and size of trees required for replacement shall be calculated in accordance with Tree Canopy Replacement provisions, ~~Table 3-1~~ of the *Tree and Landscape Technical Manual*.

(B) The difference between the required tree replacement and the number of trees that cannot be feasibly planted on site shall be mitigated through contribution to the City of Palo Alto Forestry Fund as provided in ~~Section 3.15~~ of the *Tree and Landscape Technical Manual*. Payment to the Forestry Fund would be in the amount representing the fair market value, as described in ~~Section 3.25~~ of the *Tree and Landscape Technical Manual*, of the replacement trees that cannot be feasibly planted on site.

(2) Location of replacement trees is subject to review and approval by the director in consultation with the ~~City Arborist~~ urban forester.

In the non-zero setback zone only, if a stop sign is provided at the driveway exit, the director may decrease the required dimensions of the sight distance triangles. For cases not covered by [Figure 6](#), sight distance triangles shall be provided as required by the director. Neither the sight distance triangles nor any portion of the public right of way shall contain any wall, sign, berm, or other obstruction that is greater than three feet high above driveway grade, unless its width (measured in any direction or diameter) is eighteen inches or less. fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

**SECTION 12.** The Council finds that this ordinance is exempt from the provisions of the California Environmental Quality Act (“CEQA”), pursuant to Section 15061 of the CEQA Guidelines, because it can be seen with certainty that there is no possibility that the ordinance will have a significant effect on the environment. Alternatively, the ordinance is also exempt under CEQA Guidelines Section 15308 because it involves regulatory action for the protection of the environment.

**SECTION 13.** This ordinance shall be effective on the thirty-first day after the date of its adoption. However, this ordinance shall not apply to any projects that have submitted a complete application as of the ordinance’s effective date.
