GENERAL NOTES:
1. The submittal provisions for ITU survey only if the conditions are to be identified by the city engineer or their designee and adjustments may be needed. Signs shall be placed such that they are not blocked by other roadway features and are not in a location that impacts driver sight lines. Where possible, new signs should be placed at property lines. Final signing placement shall be approved by the city engineer or their designee.
2. All work and materials shall comply with the 2018 state of California Department of Transportation (Caltrans) Standards Plan, 2014 edition of the California Manual on Uniform Traffic Control Devices (CA MUTCD), and Standard Specifications and applicable city of Palo Alto standards unless otherwise stated.
3. City of Palo Alto specifications shall supersede those of the Caltrans standard plans and specifications where inconsistencies exist.
4. All materials provided by the contractor to be used on the project shall be submitted to the city engineer or their designee for approval. Prior to certifying any equipment, the contractor shall provide sign proofs for all proposed signs and obtain city approval prior to ordering.
5. ALL SIGN CODES REFER TO THE 2014 EDITION OF THE CALIFORNIA MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (CA MUTCD) UNLESS OTHERWISE NOTED.
6. ALL EXISTING SIGNAGE AND STRIPING SHALL REMAIN UNLESS OTHERWISE NOTED.
7. The contractor is responsible for verifying that the minimum sight distance is met prior to placement of traffic control devices shown on plans. If the sight distance cannot be met, the contractor will notify their engineer prior to placement of traffic control devices.
8. It shall be the responsibility of the contractor to obtain permit necessary to perform the improvements shown in the plans from the appropriate agencies and to comply with the agencies' requirements. The contract must comply with all applicable national, state, and local laws.
9. The contractor is responsible for verification of all existing underground utilities if buried or not shown on plans. The contractor shall contact USA (800-424-8888) at least 48 hours before beginning work.
