

DISPOSE OF MEDICINE AND NEEDLES SAFELY.

Medicines and sharps (injection needles) should not go in the trash, or down the sink or toilet. They can injure or poison pets and people when placed in the regular trash. And when medicine is disposed of in the sink or toilet, it can pollute the San Francisco Bay. **Bring your medicine and needles to a safe disposal location – look for this bin at one of the convenient drop-off sites below!**

**Please consolidate pills into one container and leave ointments and liquids in original container.*
