

# City of Palo Alto – Utilities Department

## PHOTOVOLTAIC ELECTRIC LOAD SHEET

(Applicable for Customer-Generator systems such as photovoltaics, energy storage, etc.)

|  |  |                    |  |                          |        |
|--|--|--------------------|--|--------------------------|--------|
| Project Location Address:  |  | Permit #:          |  | Date:                    |        |
| Customer Generator:<br>(Property Owner)  |  | Mailing Address:   |  |                          | Phone: |
|  |  | e-mail:            |  |                          |        |
| Name of Applicant:<br><br><input type="checkbox"/> Owner <input type="checkbox"/> Contractor<br><input type="checkbox"/> Consultant  |  | Phone:             |  | Cell:                    |        |
|  |  |                    |  | Fax:                     |        |
|  |  | e-mail:            |  |                          |        |
|  |  |                    |  |                          |        |
| Expected Completion Date:  |  | Main Switch Size:  |  | Amps                     |        |
| Photovoltaic System Information:   |  | PV System Size:    |  | kW (CEC-AC)              |        |
| Energy Storage / Battery System Information: (if used)   |  | ESS System Size:   |  | kW-AC (charge/discharge) |        |
| Other System Information:  |  | Other System Size: |  | kW-AC                    |        |
| <p><b>Note:</b> In addition, please complete <i>'Interconnection Agreement for Net Energy Metering Generating Facilities'</i> (the Agreement is located here: <a href="#">Interconnection Agreement</a> )<br/>         If you have any questions, please contact: <a href="mailto:utilities.engineering@cityofpaloalto.org">utilities.engineering@cityofpaloalto.org</a></p> |  |                    |  |                          |        |

Revised: January 9, 2018
